Give your guests the superior Internet connectivity they deserve

interTouch
CLOUD

In today's connected, technology driven world, your guests expect fast, secure and reliable Internet 24/7 everywhere they go. We keep your guests seamlessly connected to the Internet from the moment they arrive to the time they leave, throughout the hotel's premises.

Our High Speed Internet Access (HSIA) solutions have been certified and approved by most major hotel brands worldwide. We power more hotel guest Internet connections than any other brand globally. Whether your guests are staying for business or leisure, having fast and secure Internet access is essential.

Our secure, reliable and scalable HSIA solutions are designed for seamless roaming and are easy to centrally manage. We offer full customisation so that you can personalise the guest interface to fit your brand. No matter how many rooms your property has, we have all your guest Wi-Fi needs covered.
