OUR SOLUTIONS

We enable hotel guests to connect and control their digital experiences throughout their stay.

CONNECT

interTouch — CLOUD —

Guest Internet Connectivity

Give your guests the secure and superior Internet connectivity they deserve

Our cloud-based solutions are designed to ensure your guests are always seamlessly connected to the Internet throughout the hotel. No matter how many rooms your property has we have got all your guest Internet connectivity needs covered.

interTouch — PASSPOINT —

Secure Wi-Fi Authentication

Deliver a guest Wi-Fi experience that's like being at home

Deliver a Wi-Fi experience to your guests that's like being at home; instant and secure without having to constantly enter usernames and passwords. We open the door to better loyalty and engagement, each and every time a guest connects to a hotel network.

interTouch — TELEPHONY —

PBX Solutions

Realise dramatic cost savings by moving to a reliable cloud PBX service

Reduce the high cost of maintaining outdated phones and telephony systems whilst still offering reliable emergency calling options with high sound quality and location information to ensure guest safety in each hotel room.

CONTROL

interTouch — CAST —

In-room Casting

Offer your guests a more personalised entertainment experience with every stay

Our in-room casting solutions allow your guests to transform and personalise their entertainment experience within their room. Make your guests feel at home and give them the simple, secure and seamless experience they want.

interTouch — ENTERTAINMENT —

In-room Entertainment

Differentiate from your competitors and maximise your revenue opportunities

Your guests want more than just a simple television set in their room. Our IPTV technology based in-room entertainment solutions transform the traditional TV into an interactive digital portal to elevate your guest's experience with high-definition digital entertainment, and advanced information and communication services.

interTouch — ASSISTANT —

In-room Virtual Assistant

Say hello to the patented technology that makes hotels as comfortable as home

Our in-room virtual assistants are the world's first cloud-powered interactive guest room assistants, created especially for hotel guests. Each device gives your guests 24/7 access to a whole host of amenities and services from in-room controls and guest services, to hands-free phone calls.

24/7/365 support
